---

Summary

Highly motivated and detail-oriented Java Full Stack Developer with a solid foundation in SpringBoot, ReactJS, Node.js, Java, JavaScript, MySql, MongoDB. Skilled in creating responsive and visually appealing websites, with hands-on experience in problem-solving, collaboration, and effective communication. Currently pursuing a Bachelor of Computer Applications (BCA) from Tilak Maharashtra Vidyapith University (2023–2026). Certified in Full Stack Development (IT Vedant)

Skills

SpringBoot	**ReactJS**	**NodeJs**	**Java**
JavaScript	**Python**	**Html/Css**	**Tailwind**
Bootstrap	**MySQL**	**MongoDB**	**GitHub**

Projects

Blood Bank Management System   **August 2025**

🔗 https://github.com/samarth-ambure/SanjeevneDropsProject.git

Blood Bank Management System - Developed a full-stack web application using Java Spring Boot (backend) and ReactJs (frontend) for efficient management of donors, blood inventory, and hospital requests. Implemented RESTful APIs for seamless communication between frontend and backend. Utilized MySQL for structured data storage and optimized CRUD operations. Focused on modular architecture, data validation, and error handling to ensure robustness and scalability. Designed a responsive UI with React Hooks and state management for smooth user interaction.

My Secure Personal Journal   **November 2025**

Personalized Secure Journaling**:** Developed a desktop-based journaling application using Python and the Tkinter library for a streamlined user experience.

Security & Access Control**:** Implemented a robust lock-screen system with custom access code functionality and file-based password persistence for data privacy.

Integrated Task Management**:** Designed a dynamic **To-Do List** module with real-time status updates (add/clear/check tasks) using Python's state management.

Certifications

Masters in Java Full Stack Web Devleopment   **September 2025**
I.T Vedant

Education

Tilak Maharashtra Vidyapith University   **August 2023 - present**
Bachelor's of Computer Application   BCA

I.T Vedant   **February 2025 - September 2025**
Full Stack Web Development With Java   FSD
